## SCENES FROM The Historical Pageant of Florida

as Presented on the Campus of the Florida State  
College for Women, May 7, 1917

### THE PROLOGUE: *The Fountain Legend.*

Miko, chief of the Muscogeese, had a beautiful daughter, loved by a noble youth, who would lead her to his home. The old Fire Maker and Passa Brewer warned them of impending danger. A doe-skin fell from heaven upon the willful lovers and covered them. A fountain gushed forth where they had stood. This filled the valley and made Lake Jackson, over whose waters the youth and his fair bride still sail by moonlight.

### THE EPISODES:

1. *The Coming of Ponce de Leon.*

Ponce de Leon was searching for gold and for the fountain of immortal youth. He found Florida, but the fountain was not to be found.

2. *The Landing of DeSoto.*

DeSoto landed in Tampa Bay. He fought the Indians and his men became weary of the useless hardships.

3. *The Coming of the Huguenots.*

The French claimed Florida and sent Huguenots to make a settlement. Menendez, for Spain, made them captives and slew them as heretics.

4. *Echoes of the Revolution.*

During this period, Florida was mainly loyal to England, and punished those who sympathized with the colonists.

5. *Jackson Takes the Territory.*

(a) Capture of Pensacola: From the Spaniards by General Jackson in 1819.

(b) The Founding of Tallahassee.

In 1824, early settlers founded Tallahassee and built a capitol of logs.

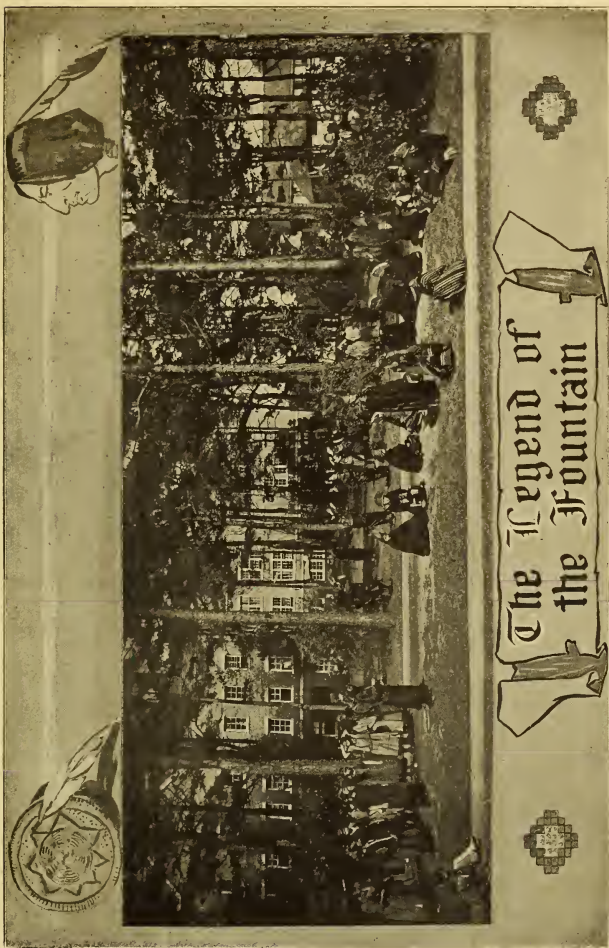

6. *The Seminole War.*

In 1835, the Indians became dissatisfied with their reservation and the Seminole War broke out.

7. *Battle of Natural Bridge.*

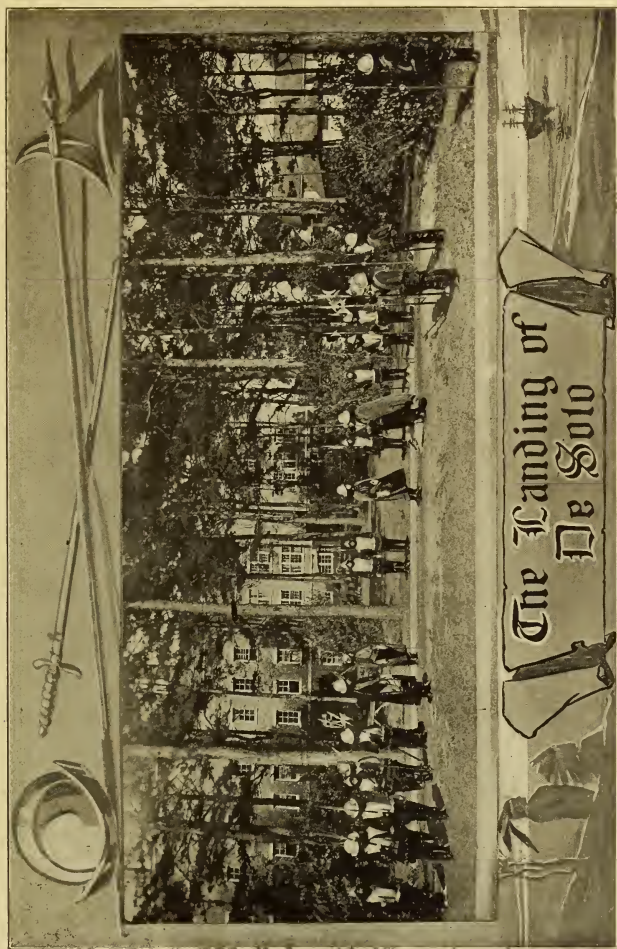

In March, 1865, Federal troops landed at Newport and moved towards the Capital. Few troops were in reach, but the cadets of the Tallahassee Institute marched to Natural Bridge and joined in the battle which drove the Federals back to their boats.

## A Few Words

The Florida State College for Women has the unique distinction of being the only standard college in America established and supported by a state for the higher education of women. In equipment and character of work done, it is gradually taking rank with the great endowed colleges for women. In the reports of the United States Commissioner of Education, it is classed with the comparatively small number of standard colleges and universities in the South.

The growing attendance gives evidence of its increasing usefulness to the state, and likewise of the increasing interest of the people of the state in their college. The following record of attendance shows the growth of the institution:

1905-06.....204	1911-12.....315
1906-07.....220	1912-13.....413
1907-08.....240	1913-14.....477, including Summer School 60
1908-09.....257	1914-15.....636, " " " 163
1909-10.....273	1915-16.....818, " " " 259
1910-11.....280	1916-17.....959, " " " 363

The work done by the Florida State College for Women is organized as follows:

- I. THE GRADUATE SCHOOL
- II. THE COLLEGE OF ARTS AND SCIENCES
  - (a) A curriculum leading to the A.B. degree
  - (b) A curriculum leading to the B.S. degree
- III. THE SCHOOL OF EDUCATION AND NORMAL SCHOOL
  - (a) The School of Education with curricula leading to the A.B. and B.S. degrees in Education
  - (b) The Normal School
    1. College courses leading to the L.I. degree
    2. The Training School
    3. The College High School
    4. The Elementary Professional Division
  - (c) The Summer School
- IV. THE SCHOOL OF ART
- V. THE SCHOOL OF EXPRESSION
- VI. THE SCHOOL OF MUSIC
- VII. THE DEPARTMENT OF BUSINESS
- VIII. THE DIVISION OF COLLEGE EXTENSION
  - (a) Home Demonstration Work
  - (b) Correspondence Study
  - (c) Lectures
  - (d) High School Service

For admission to II, III, IV, V, and VI, sixteen units of standard high school work are required, except that graduates of junior high schools may enter the College High School, and mature young women who are preparing to teach immediately may enter such courses in the Elementary Professional Division as they are prepared for. There are no fixed requirements for admission to the Summer School or to the courses given by the Division of College Extension.

Tuition is free except in IV, V, and VI, and in these the rates are very reasonable. Other expenses are just as low as they can be made without lowering the high grade of service deemed essential.

Tallahassee is in the hill country of Florida. This section is noted for both scenic beauty and healthfulness, and closely resembles the Piedmont country in the Carolinas and Virginia. The winters are mild enough, yet not enervating. The summers are never as hot as are those of cities farther north.

The catalogue contains full information. This illustrated Bulletin has been prepared in order that you might see something of the equipment of the college, and also get a glimpse into the life of the students while they are here.

For catalogues or other information, address

EDWARD CONRAD, President.
